**Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is swollen and the sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out of this tube, restored to its normal condition, hearing will be destroyed forever. Deafness is caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The ice house is large enough to receive 70 tons. The foundation walls of the structure are of concrete, three feet thick. It is the result of years of thoughtful planning and superior constructive ability. John Proctor of Bridgton is master builder, with a capable crew of assistant carpenters.

R. at Washington, Mrs. Mary Tarbox of Fryeburg was elected senior vice president of the National body. Mrs. Tarbox is well known in all sections of Maine, having held the office of president of the order in Maine department and her elevation to so high an office proves that her ability and loveliness of character is not only appreciated in her own State, but by all whose privilege it is to know her. There were several candidates for the office but Mrs. Tarbox received a majority of the 600 votes thrown.

**STOMACH MISERY QUICKLY VANISHES** Your money back if you want it is the way in which the Noyes Drug Co., the popular druggists are selling Mi-o-na, the great dyspepsia remedy.

This is an unusual plan, but Mi-o-na has so much merit and is so almost invariably successful in relieving all forms of indigestion that they run but little risk in selling under a guarantee of this kind.

Do not be miserable or make your friends miserable with your dyspepsia. Mi-o-na will help you. If it doesn't, tell the Noyes Drug Co. that you want your money back and they will cheerfully refund it.

A change for the better will be seen from the first few doses of Mi-o-na and its continued use will soon start you on the road to perfect digestion and enjoyment of food.

Mi-o-na has been so uniformly successful that every box is sold under a positive guarantee to refund the money if it does not relieve. What fair proposition could be made?

The Noyes Drug Co. give their personal guarantee of "money back if you want it" with every box of Mi-o-na that they sell. A guarantee like this speaks volumes for the merit of the remedy. 40-41

# Two Gold Medals—Highest Award at The Panama Exposition, 1915

WEIR-STOVE-COMPANY-TAUNTON-MASSACHUSETTS

Glenwood Coal Ranges, Gas Ranges, Furnaces and Heaters, awarded Two Gold Medals, at the Panama-Pacific International Exposition, San Francisco, Cal., 1915.

Glenwood Ranges are the product of New England's largest and best known foundry. They are designed by makers of life-long experience. They weigh more, are put together better and burn less fuel than most ranges. The castings are wonderfully smooth and easy to keep clean.

They are handsome, convenient and mechanically right—no modern feature lacking. Smooth cast, Colonial design, plain

finish, compact structure, big roomy ovens, easy working grates and countless other features. Owing to their sturdy construction and fine workmanship, they will stand hard usage, do better work and last much longer than the ordinary kind.

They certainly do "Make Cooking and Baking Easy".

Get one and make housekeeping drudgery.

### LOCKE'S MILLS.

Mrs. Ruth Young.  
Mrs. Ruth Young, affectionately called by everyone, "Aunt Ruth," passed away at the home of her daughter, Mrs. Lena Woodman, Friday noon. Although she had been quite sick for several months, her death came unexpectedly.  
Mrs. Young always had a smile for everyone and was a kind neighbor who will be greatly missed.  
The funeral was held Sunday afternoon at the church, Rev. T. C. Chapman of Bethel officiating. The many beautiful floral offerings showed the esteem in which she was held.  
She leaves a sister, Mrs. Coffin of Mechanic Falls, two daughters, Mrs. Tena Woodman, and Mrs. C. E. Stowell, and two grandchildren, A. R. Stowell and Mrs. Lincoln Hodgkins of New York.  
She was a great church worker and teacher for thirty years in the Sunday school. She was laid to rest beside her husband.

**New Deer Season.**  
Maine's deer season has opened and will find many hunters in the big woods. The reduction that has been made in the cost of licenses for non-resident sportsmen should bring results in increasing the numbers of visiting hunters as it materially reduces the cost of the visit.

In the past few years there has been a reduction in the number of accidents co-incident to the game season, due largely, we believe, to the punishment provided by law for offenders who take human life by reason of carelessness. Not so many men are shot for deer as formerly and we have, it is to be hoped, passed by the times when the daily papers so constantly reported fatal accidents in the Maine woods.

There will be more than enough accidents in spite of every care taken by the sportsmen and too much care cannot be given to the safety of the sportsman. The same holds true regarding the woods' fires. In this respect also, the sportsmen should use every precaution to avoid starting a blaze that may easily destroy property to the value of thousands of dollars.

They are allowed the privilege of hunting on the property belonging to others and should show their appreciation by using the same care and precaution that they would exercise if the property was their own.

## "Gets-It" for Corns, SURE as Sunrise!

Any Corn, With "Gets-It" on It, Is an Absolute "Goner!"

Yes, it's the simplest thing in the world to get rid of a corn, when you use "Gets-It," the world's greatest corn-killer. Really, it's almost a pleasure to have corns just to see

"Gets-It" Puts Your Feet in Clover.

When corns come off with "Gets-It," it just loosens the corn from the true flesh, and then makes it come "clean off." 48 hours ends corns for keeps. It makes the use of tape, corn-cutting bandages, irritating salves, knives, scissors, and razors really look ridiculous. Get rid of those corns quickly, surely, painlessly—just easily—with "Gets-It." For warts and bunions, too. It's the 20th century way.

"Gets-It" is sold by all druggists, 25c a bottle, or sent direct by B. Lawrence & Co., Chicago.

FOR MOTHERS  
Hints on Child Welfare

Every proud mother likes to see her children strong, well and happy. The way to have pride in your children is to train them to good habits of body, as well as of mind. THE BELL HILL CHURCH.

There is an error in stating that the present Congregational church on Otisfield Hill was erected in 1797, or is over 100 years old. The present church edifice was erected in 1839, of which Nathan Nutting was master builder, assisted by Samuel W. Chadbourne, Lyman N. Kimball and other capable assistant carpenters. That is the best example of modern church construction, or one of the best in this part of the state.

The meeting house of the first church of Otisfield, erected in 1795-1797, was occupied by the people of that society, until the new church building was finished and ready for dedication, but it was used for town meetings until 1845, when it was demolished and portions of its timber material used in the building of a new townhouse near Chamber's Corner.

The old meeting house was of a style of construction long since obsolete, yet it was a specimen of substantial and elegant workmanship, unexcelled in modern days. The writer has been to church in that old first building many times in his boyhood, and has distinct recollection of its appearance, as well as of the building of the new (present) church.

As I write these reminiscences, I seem to be listening to the inviting tones of the "church going bell," to the melodious singing of the old choir, the solemn voice of the eloquent preacher, who was the spiritual leader of that devoted flock of believers for many years, during its best and happiest period of earthly prosperity.

The beautiful temple of religion yet remains, crowning the grand height; the bell is seldom heard as in past days. Memory recalls the faces and kindly voices of the people who came to worship in the beloved place, but the reflection leaves only a feeling of sadness and regret for the days that never will come back.—G. F.

## A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strong.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Bowne, Broomfield, N. J.

OLD AND NEW WAY  
TO TREAT CATARRH

Breathing a Germ Killing Air Endorsed By Actual Results.

The discovery of Hyomei has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the cure of this disease were drugs, sprays, lotions, etc. In some instances they benefited, but the improvement was not lasting.

With Hyomei you take into the air passages of your throat and head a balsamic air that goes into the minutest cells, and should effectively kill all germs and microbes of catarrh. Its purpose is to enter the blood with the oxygen killing the germs in the blood, and restore health to the whole system. Many astonishing testimonials have been received from those who have been helped by Hyomei.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Perhaps the strongest evidence that can be given to the doubters, is the fact that Noyes Drug Co. has so much faith in Hyomei that they give every package under a positive guarantee to refund the money if it does not relieve. 40-41

Tobacco That Comes To You Cut Up, Comes Dried Up

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

Whereas, our friend, Mr. James H. Cum-

Resolved, that in the going of Bro. Cum-

of his fidelity and worth cannot be expressed  
in words. And we shall hold in sacred mem-  
ory of his faithfulness to us as our esteemed

his helpfulness and wise counsel. That which

has gone leaving the inheritance of a  
good life." Be it therefore  
Resolved, that we testify our heartfelt  
sympathy to those who were near and dear to  
him. That a copy of these resolutions be

**YOU OUGHT TO PAINT**

I ought to have painted last year, but  
I hated to pay \$2 a gallon.  
I've got to paint this year; it'll take  
a little more paint; I suppose 1 gallon  
in 10; and a little more work, I suppose  
1 day in 10.  
My job would have cost last year about  
\$50; it is going to cost this year \$55.  
\$5 gone. I suppose it'll be the same  
again, if I wait again.

What if I paint now down to \$1.75 a  
gallon? \$2.50 on this job!  
I shan't wait; what a fool I was!
